OBJECTIVE

Aspiring Software Engineer with hands-on experience in AI/ML, Cloud Technologies, and Competitive Programming. Seeking internship opportunity to apply technical skills in building scalable AI solutions.

EDUCATION

Bachelor of Computer Science 3rd Year (In Progress), Ain Shams University, Egypt 2023 – 2027

SKILLS

Programming: C++ (OOP), Java (OOP), Python, SQL

ML & AI: Scikit-learn, NumPy, Pandas, Azure ML, Neural Networks, Model Deployment

Cloud & Tools: Microsoft Azure, Google Colab, Git

Problem Solving: 400+ problems solved using C++ ([Codeforces](#), [Vjudge](#)) - Strong in Algorithms & DS

Soft Skills: Team Collaboration, Analytical Thinking, Fast Learner

EXPERIENCE

DEPI - Digital Egypt Pioneers Initiative (In Progress)

Current – 6 Months

AI & Data Science Track - Microsoft ML Engineer Trainee, Cairo, Egypt

- Built and deployed ML models on Azure, gaining hands-on experience in cloud AI solutions

Summer Training: AI and ML (120 Hours) [[National Telecommunication Institute \(NTI\), Egypt](#)] **Jul 2025**

- Completed intensive program in supervised/unsupervised learning (Regression, SVM, K-means, PCA)

Software / ML Intern [Elevoo, Cairo, Egypt](#)

Aug – Sep 2025

- Preprocessed datasets, engineered features, and built ML models in collaborative environment

PROJECTS

• **Mini Operating System** [[GitHub](#)]

Built functional OS with memory allocation, and fault handling mechanisms, CPU scheduling [C, x86, System Programming].

• **Loan Approval Prediction** [[GitHub](#)]

Loan approval classification (LR, KNN, SVM, DT, RF) using SMOTE [Python, Scikit-learn].

• **ML Models From Scratch** [[GitHub](#)]

KNN, Regression, SVM from scratch.

• **Library Management System** [[GitHub](#)]

Designed Java-based system with OOP principles and data structures [Java].

• **Gym Management System** [[GitHub](#)]

Developed modular C++ system managing members and schedules [C++].

ACHIEVEMENTS & CERTIFICATIONS

- **Huawei HCIA-AI V4.0 Certification** [[Certificate](#)] – Score: 828/1000 (Top performer in AI & ML)
- **Competitive Programming Expert:** Solved 400+ problems using C++ on [Codeforces](#), [Vjudge](#). Strong foundation in Data Structures, Algorithms, and Problem-Solving
- **ECPC 2024 Participant** [[Certificate](#)]: Egyptian Collegiate Programming Contest - Advanced problem-solving & teamwork
- **NVIDIA Deep Learning Certificate** [[Certificate](#)]: Completed hands-on labs in Deep Learning
